The President Barack Obama said he is 'Christian by choice' and that Jesus Christ has influenced the life he 'would want to lead'. Barack Obama has several times brought up his christianity in speeches. Again, recently, Jimmy Kimmel tried a new test, to question Americans about their president's religion. 'so, I came to my Christian faith later in life, and it was because the receipts of Jesus Christ spoke to me in terms of the kind of life that I would want to lead.'

According to a poll conducted by CNN and ORC International, nearly 30% of Americans still believe President Barack Obama is Muslim and 20% don't even believe he was born in the United States.

And more than half of Donald Trump's supporters think Barack Obama is Muslim, as do 43% of Republicans. Donald Trump was vocal about his skepticism regarding the president citizenship and in 2011 managed to get the release of his long form birth certificate. Still, 80% of the surveyed adults do believe that he was born in the country.

1% of Americans believe the president was born in the Middle East. 61% of adults who believe Barack Obama is a Christian were Democrats. Rumors that he was secretly a practicing Muslim first began all the way back in 2004 during his campaign for the Senate.
